SUBJECT INDEX

Adolescent behavior
violence, violence prevention, longitudinal studies, African-American male youth 117
Adolescent health
correlates, health-compromising behaviors, high-risk behaviors, adolescents 37
Adolescents
condom use, juvenile rehabilitation centre, self-efficacy, intention, moral norm 289
AIDS
child care providers, pediatric AIDS, implication for education, Health Belief Model 53
health education, information, knowledge, hotlines 279
HIV, participative education, attitudes, Ireland 267
Alcohol
adolescent, Ajzen's Theory of Planned Behavior (TPB), Michigan 323
drug use, adolescence, school, community, social environment 255
health promotion, meaning, youth 311
portrayal of consumption, British soap operas, content analysis 519
tobacco, adolescence, time, Finland 25
Behavioral science
health education, principles for practice 143
Cancer
colorectal cancer, health education, screening 171
Data-based Intervention Research (DBIR) program, National Cancer Institute (NCI) 181
melanoma, detection, photographic information, written information 375
prevention and control, National Cancer Institute (NCI), Data-based Intervention Research (DBIR) program 199
Cardiopulmonary resuscitation
secondary school, peer tutoring 347
Child care providers
AIDS, pediatric AIDS, implication for education, Health Belief Model 53
Colorectal cancer
cancer, health education, screening 171
Condom
adolescents, direct experience, attitudes 301
use, adolescents, juvenile rehabilitation centre, self-efficacy, intention, moral norm 289
use, adoption and continuation, intervention programs, Transtheoretical Model of Change (TMC) 61
use, attitude, affect, cognition 15
Correlates
adolescent health, health-compromising behaviors, high-risk behaviors, adolescents 37
Drug use
alcohol, adolescence, school, community, social environment 255
Environment
health, educational philosophy, critical thinking 429
health, Global Rivers Environmental Education Network (GREEN), action-oriented education, USA 469
health, Investigation–Vision–Action–Change (IVAC) model, primary school, Australia 473
health, Investigation–Visions–Action–Change (IVAC) model, school health education, Denmark 419
health, post-traditional societies 403
health, research, Ballarine Youth Network (BYN), young people 449
health, values, care 437
health, water, Schools Water Action Programme, South Africa 461
Food
nutrition education, introduction of healthy food, perceived reactions, adolescent reactions, family members influence 77
Health
environment, educational philosophy, critical thinking 429
environment, Global Rivers Environmental Education Network (GREEN), action-oriented education, USA 469
environment, Investigation–Vision–Action–Change (IVAC) model, primary school, Australia 473
environment, Investigation–Visions–Action–Change (IVAC) model, school health education, Denmark 419
environment, post-traditional societies 403
environment, research, Ballarine Youth Network (BYN), young people 449
environment, values, care 437
environment, water, Schools Water Action Programme, South Africa 461
habit, decision-making, exercise behaviour, physical activity 363
socioeconomic indicators, socioeconomic inequalities, health behaviour, adolescents 385
Health behavior
risk likelihood, scales, college students 139
Health education
AIDS, information, knowledge, hotlines 279
behavioral science, principles for practice 143
cancer, colorectal cancer, screening 171
Health promotion
alcohol, meaning, youth 311
global models, health policy, UK 479
injury prevention, community participation, sociological approaches to the community, local identities 333
journals, content analysis 491
nutrition, health coalitions, intersectoral action, formative evaluation, collaboration 213
HIV
AIDS, participative education, attitudes, Ireland 267
Immunization
vaccine, qualitative methods 355
Injury prevention
health promotion, community participation, sociological approaches to the community, local identities 333
Investigation–Vision–Action–Change (IVAC) model
health, environment, primary school, Australia 473
health, environment, school health education, Denmark 419
Media images
smoking, young people, semiotics 505
Melanoma
cancer, detection, photographic information, written information 375

Nutrition
health promotion, health coalitions, intersectoral action, formative evaluation, collaboration 213
Nutrition education
food, introduction of healthy food, perceived reactions, adolescent reactions, family members influence 77
Risk likelihood
health behavior, scales, college students 139
Self-administered interventions (SAIs)
health care, clinical strategies, 'population-based' strategies 531
Sexual health
young people, interagency 91
Sickle cell disease
stress, coping, mothers, Nigeria 161
Smoking
alcohol, product warning messages, warning labels, hispanics 103
cessation, relapse prevention, pregnant women 247
mass media, anti-smoking campaigns, adolescents, Norway 227
media images, young people, semiotics 505
risk-taking behaviour, perceptions of peer groups 1
smoking cessation, worksite, intervention, quit-rate, Chicago area 129
women, diary, context, mood 237
Tobacco
alcohol, adolescence, time, Finland 25
Vaccine
immunization, qualitative methods 355
Violence
adolescent behavior, violence prevention, longitudinal studies, African-American male youth 117
Warning labels
smoking, product warning messages, warning labels, hispanics 103
Water
health, environment, Schools Water Action Programme, South Africa 461
